

Eggnaut

Introduction:

This activity involves the STEM club pupils experimenting with designs and ideas to construct a vehicle that can safely protect their 'eggnaut' from the perils of re-entry.

This activity was created by ESA and the accompanying PDF contains full details of the activity, together with a range of follow up ideas depending upon the ages and abilities of the children involved.

Resources Needed:

- Eggnaut activity PDF
- Plain A4 paper
- Drinking straws
- Lollypop sticks
- Masking tape
- Rubber bands
- Pair of scissors
- Egg
